

SUU expansion

Fri 22nd October 2010

SUU Hotels, a brand of lifestyle small hotels, has opened hotels in Turkey and Costa Rica. Each of its centrally located hotels combines mountain and ocean views, and has contemporary decor. Yoga programs and healing treatments are held at each hotel's movement pavilion, where complimentary yoga classes are taught daily.

Poolside butlers offer an afternoon fruit sorbet, Evian spring water, fresh towels and cucumbers. Guests can be pampered while they indulge in indoor and outdoor spa services. Dining is available on each guest's terrace, poolside, beneath the stars or overlooking the sea. A personal chef is also available upon request.

The SUU Türkbükü, situated on the northern shore of the Bodrum peninsula in Turkey, offers luxury accommodation steps from the Aegean Sea. It opened June 30 and has 48 villas with views of mountains that drop steeply into the sea and is surrounded by orchards of lemons and tangerines. The SUU Manuel Antonio opened in August in the tropical rainforests of Costa Rica, minutes away from Manuel Antonio National Park. In walking distance from the hotel is Biesanz Beach, easily accessible by a trail. SUU plans to develop new hotels in Asia, Marrakech, Mikonos, Riviera Maya, Ibiza, Majorca, St. Barts and Tunisia.
